# Configure JS engines

A guide  
on  
configuring  
JS  
engines  
for both  
Android  
and iOS  
in an  
Expo  
project.

JavaScript  
engines  
execute  
your  
application  
code  
and  
provide  
various  
features  
such as  
memory  
management,  
optimization,  
and  
error  
handling

## On this page

Configuring the jsEngine through  
app config

Using the V8 Engine

Switch JavaScript engine on a  
specific platform
