# Project structure

Learn about the files and folder structure when a new Expo project is created.

When you create a new Expo project, a few files and folders are provided by default. This page lists out

-  On this page
- App.js
  - app.json
  - assets folder
  - Other standard files
    - .gitignore
    - babel.config.js
    - package.json
  - Next step
