

Controls

Cross-platform

Fluent UI React Native's controls are built with React Native, and are compatible with other Javascript and React Native component libraries. Look through the control list to see the building blocks that are available using Fluent UI React Native across platforms.

Basic Inputs

- [Button](#)
- [Link](#)

Items & Lists

- [Persona](#)

Utilities

- [Text](#)
- [Separator](#)

Need a control you don't see here?

First, check the [Fluent UI React Native issue queue](#) to see if your component has already been requested or is being worked on. If you don't see an existing issue for the component you're looking for, please [file an issue in the repo](#). If we're already working on it, we'll let you know. If it's new to our list, we'll keep you posted.

What's new	Microsoft Store	Education	Business	Developer & IT	Company
