

TELUS Component Library

A11yInfoProvider

Multi-Platform Component

```
<A11yInfoProvider>{/* content requiring A11yInfo */}
</A11yInfoProvider>
```

Introduction

```
import { A11yInfoProvider } from '@telus-uds/components-base'
```

[Follow the appropriate instructions](#) to add this component in to your app.

Guidance

! INFO

A11yInfoProvider is automatically included in BaseProvider. **You don't need to include A11yInfoProvider in your app separately if you are already using BaseProvider.**

A11yInfoProvider provides a react, cross platform API onto user device accessibility data. These data can be accessed with the `useA11yInfo` hook.

```
import { useA11yInfo } from '@telus-uds/components-base'
// ...
const { screenReaderEnabled, reduceMotionEnabled } =
  useA11yInfo()
```
