Introduction

A designer knows he has achieved perfection not when there is nothing left to add, but when there is nothing left to take away

[Follow the appropriate instructions](#) to add this component in to your app.

Guidance

- Use to highlight text to the user.
- If using as a quote, always attribute a name to your quote.
- Always include the correct quotation marks for EN ("") and FR («»).
- If you're quoting from an external source, include the source as a hyperlink using "linkHref" prop.

Accessibility

No accessibility notes.

Platform considerations

This component is currently only supported on web.

Props

Name	Type	Platform	Default	Description
textStyle	'large' | 'heading'	web only	'large'	Whether to render BlockQuote as a heading size of `h3` or large text size
tokens	tokens	web only		System tokens prop, see tokens for more details
variant	variant	web only		System variant prop, see variants for more details
children*	node	web only		Children nodes that can be added
link	string	web only		External source's identifier (e.g. author's name)
linkHref	string	web only		External source's URL

Name	Type	Platform	Default	Description
additionalInfo	string	web only		To provide additional information about the source, rendered underneath `link`

Tokens

In exceptional circumstances, the following tokens can be passed to this component to override its default styles. **Do not do this unless absolutely necessary.** Read more about overriding styles.
